The Skywalk Arts Festival is Presented by Historic Bridges of the Hudson Valley, in Conjunction with the New York State Bridge Authority and the Two Historic Sites, and Celebrates the New Scenic Walkway at the Place where American Art Began

The Festival includes Free Special Events Celebrating the Art of the Hudson Valley, including an Art Performance by Internationally Acclaimed Artist Shi Guorui Connecting the Three Skywalk Locations with Beams of Light across the Sky over the Hudson River.

Catskill, NY: Historic Bridges of the Hudson Valley, Thomas Cole National Historic Site and Olana State Historic Site announced today the third annual Skywalk Arts Festival to take place on the afternoon of Sunday, September 22. The Festival celebrates the art of the Hudson Valley and the inaugural year of the Hudson River Skywalk, a new scenic walkway at the place where American art began. The new walkway connects the homes and studios of the major Hudson River School artists, Thomas Cole and Frederic Church, over the Hudson River via the Rip Van Winkle Bridge, offering sweeping views of the Hudson River Valley and the Catskill Mountains.

Rip Van Winkle Bridge Park | 12-4 PM

Visitors are invited to the park next to the historic Rip Van Winkle Bridge's toll plaza in Catskill, New York, from 12 to 4 pm to view and purchase artwork by local artists, participate in art-making activities, listen to live music by songwriter James Hearne and enjoy Carnival Foods food truck. To enter the Bridge Authority Parking Lot, motorists must travel on Route 23 east and pass through Toll Lane 1 (Full Service Lane). The bridge park is also a short walk from the Thomas Cole National Historic Site.

Performance of Light across the Hudson River | 1 PM

Internationally acclaimed artist Shi Guorui will present a performance of light entitled *1.7 Mile Lights* to connect Frederic Church's Olana with the Thomas Cole National Historic Site. He will reflect beams of light across the sky above the Hudson River to illuminate the bonds between the two 19th-century artists, their homes, and our contemporary moment. The light performance will be visible from Olana's Ridge Road, the Rip Van Winkle Bridge walkway, and the Skywalk path from the Thomas Cole Site to the Bridge. Shi Guorui is a renowned contemporary photographer who uses the ancient camera obscura process. The performance of light is influenced by his artistic practice, Taoist rituals, and the relationship between artists Thomas Cole and Frederic Church. The performance is part of a new solo exhibition of Shi Guorui's work that will open at the Thomas Cole Site at 2pm on the same day.
